

Our Legacy in

PLOTTED DEVELOPMENTS

Century Real Estate is an integrated, full-service real estate development company head quartered in Bangalore, India, with a rich history of developing premier projects and landmark buildings that spans four decades. Established in 1973, we have contributed significantly in making Bangalore the destination of choice for people from around the world.

As one the largest land aggregators in India, Century Real Estate has the distinct advantage of offering large-scale plotted layouts in and around Bangalore. We have developed plotted layouts across different areas like Bannerghatta, Yelahanka and Old Madras Road, delivering more than 3,000 homes through plotted developments alone.

Today, we are the largest owners of real estate in Bangalore with a land bank in excess of 3,000 acres representing a development portfolio of over 20 million square feet comprising hotels, office buildings, residences, educational institutions and integrated townships.
